Sen. Vincent said those changes are OK. I've incorporated them into the draft that goes in the mailing tomorrow.

Subject: Libby Asbestos Bill Revision

Hey Joe,

Great to meet you last week and to talk with you this morning. Thank you for your quick response and help with this, we have looked at it and have just the following recommendations:

1. Section 1 (5) (b): insert "and long term operation and maintenance" after "cleanup". *Rationale: Final cleanup may be interpreted as the end of "remediation". Probably good to leave it in there, but the more important phrase is operation and maintenance.*
2. Section 1 (5) (f): insert after "managing" in last line, the phrase "and implementing operation and maintenance activities"; delete the word "work". *Rationale: County will be doing more than managing the work; also makes the role more specific to O&M.*

I'm sending these to Senator Vincent as well and hope to brief him soon. I have been unable to meet with him since our meeting in Missoula, but I'm sure we will connect soon. Thank you again Joe and I look forward to working with you in the future.

Mark
